## Good Vibrations Fly into Canada

California Dreamer Mike Love and his beach boys tour flew into Canada from Atlanta wherein they performed for a full house of fans the night before.

On Tuesday, August 30, 2000, the Beach Boys performed live for another awaiting full house in Orillia, where the hottest most exciting entertainment place in Canada is, that being Casino Rama.

Even after thirty-nine years in the entertainment business, Mr. Love danced around the stage like a teenager for more than ninety minutes, performing all of his greatest hits. His style, mannerisms and stage presence were just amazing. He brought back the sound of the good old days. You could tell by all the loud cheering and dancing going on throughout the night that their fans were having a great time.

Although only two of the original Beach Boys are still in the band the newly added band members were absolutely sensational. The show was nothing less than a hit. The sound and vocals were awesome. The band was fabulous; the showmanship of Mike Love was unbelievable. That old Beach Boy sound was emulated perfectly. All in all, they were fantastic and based on a scale of 1 to 10 J.P. rates this Beach Boys concert as a definite 10. 'Long live the music of Mike Love and his Beach Boys sound'. After such a great concert, I felt like I had just spent a week on the beach; such pure enjoyment'.
